Stunning interiors by HC Studio Concept

We are two Portuguese architects and after several years of working and experience in Lisbon and Spain, we founded HC Studio Concept, with a shop / showroom located at Estrada de Vale do Lobo, Escanxinas in Almancil, Algarve.

As an interior design company we work predominantly for private homes but also for public spaces.

We tend towards a modern and contemporary design, but the 'soft classic', when requested by the client, is also part of our work.

In our portfolio we have designed and carried out our ideas in projects for villas, restau-

rants, boutiques, hotels and the renovation of a resort.

Our work is also featured in high-profile magazines within the sector. The Portuguese Magazine *Lux Decoração*, featured a villa in Vale do Lobo, the Spanish Magazine *Arquitectura y Diseño* featured a villa at Pinhal Velho in Vilamoura, and our design projects have also been fea-

tured in Italian Magazines.

We work with some internationally recognised brands, some of them on exhibition in our shop, offering the client something new and different.

You can visit us in our shop or in our Facebook Page 'HC STUDIO CONCEPT'.

Our contacts are Mobile: 91 4978315 or 91 5913763.
